**ORDER**

**SARAH NETBURN, United States Magistrate Judge:**

This order addresses concerns raised by the parties regarding the Court's proposal to terminate several apparently duplicative or improper entries in the MDL caption. In a July 6, 2021 Order, the Court identified several entries in the caption that it believed were either duplicative, or that should have been terminated based on prior dismissal orders. ECF No. 6909 at 1. That order also proposed to terminate some of these entities and directed the Plaintiffs' Executive Committees (PECs) and Defendants' Executive Committee (DEC) to submit a joint letter indicating any concerns.

The parties submitted that letter on August 2, 2021. The DEC supported the Court's proposed plan. ECF No. 6998 at 2. The PECs stated that they were (1) unclear about what pleadings the Court drew its proposed list of entries from, (2) concerned about the legal implications of terminating a caption entry, and (3) concerned that some of the entries were not duplicative. They therefore requested additional information from the Court. *Id.* at 1-2.

The Court will address these questions in order. First, the lists at ECF No. 6909 at 3-6 were developed from a review of the "Party" query function on CM/ECF that appears when the MDL case number (03-md-1570) is searched. Initiating the "Party" query from that menu creates a list of party names that form the "MDL caption." The Court drew on this list of names to develop the lists at ECF No. 6909 at 3-6, and not from the list of any individual action. Indeed,

some of the parties the Court identified (e.g. “National Commerce Bank”) appear as active parties *only* on the MDL docket. However, to aid the PECs in reviewing the Court’s proposed course of action, the Court has compiled lists of individual actions in which the relevant names appear. Those lists are appended to this order. The Court, however, does not propose to terminate entries in these actions—only in the main MDL caption.

Turning to the PECs’ second concern, terminating an MDL caption entry has no legal implications. It creates no change of legal status and does not imply any position on the validity of claims related to that entry. Additionally, so long as only the party entry (and not the attorney entry) is terminated, attorneys will continue to receive relevant ECF notifications.<sup>1</sup> Termination is solely a means to support the back-end operation of CM/ECF and simplify docketing.

An example may be illuminating and explain why the Court is prepared to invest time in this process. Currently, the Kingdom of Saudi Arabia is listed in numerous and inconsistent ways on the MDL caption. In at least some of these cases, such as where it is listed as the “Kingdom of Saudi Arabi,” [spelling intention] no attorney is noticed. Until recently, Saudi Arabia was also listed on the MDL caption as a plaintiff. ECF No. 6862. This creates issues. For example, if the Court orders the sealing of particular materials with access restricted to “Saudi Arabia,” it is important to know which “Saudi Arabia” on CM/ECF should have access. In a case where sealing, disclosure, and access to restricted documents continues to be a serious concern, ensuring proper MDL caption entries is thus a matter worthy of attention.

Third, if parties believe, given this additional information, that the MDL caption entries identified by the Court are not duplicative, they may write accordingly.

---

<sup>1</sup> The Court does not propose to terminate any attorney entries.

The Court therefore directs the parties to enter any further objections they have to the execution of the management plan proposed by the Court at ECF No. 6909 by September 17, 2021. The Court believes this proposal will improve the efficiency and security of docketing in this complicated matter and appreciates the parties' collaboration in the efficient management of this MDL.
